PrimaTouch® Revive nitrile gloves are an innovative breakthrough in glove material technology. The Revive features an ultra soft, comfortable formulation that is infused with an advanced collagen lotion. The benefits of collagen can help to offset the effects brought on by prolonged glove use.

Features

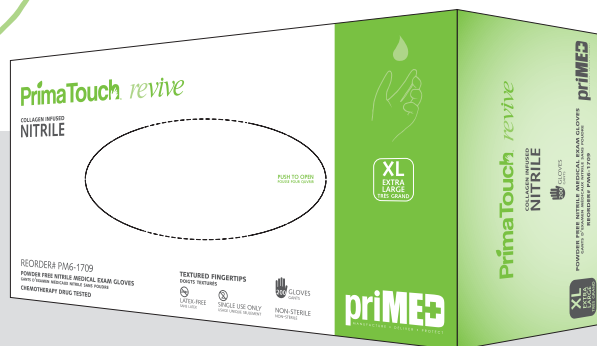

- Collagen infused ultra soft formulation
- Collagen protein moisturizes and soothes your skin
- Excellent for applications requiring enhanced tactile feel
- Meets and exceeds ASTM and Health Canada standards
- Tested for use with chemotherapy drugs (ASTM D6978)
- Unique color coded packaging system for effortless size identification
- Powder-Free
- Green color
- New 200 gloves/box packing method significantly reduces waste

Enjoy the Benefits of Collagen

PrimaTouch® Revive gloves are infused with collagen. The benefits of collagen can include:

- Softer skin
- Reduction in the signs of aging
- Aid in healing chapped skin
- Overall improvement in skin elasticity

**Don't just protect your hands,
revive them.**
